

MEET YOUR SUCCESS.

interpack is the world's leading trade fair for the processing & packaging community:

- 2,800 exhibitors from more than 60 countries
- 18 halls, on an area of more than 176,000 m²
- Solutions right along the value-added chain, from manufacturing, finishing, packaging and distribution to quality assurance and protection against product piracy.

HUMAN MEETS MACHINE MEETS MATERIALS.

There are complete production lines, from the raw material to the packaged product for the eight most important industry sectors: food, beverages, baked goods and confectionery, cosmetics, pharma, non-food and industrial goods.

MEET THE PACKAGING INDUSTRY.

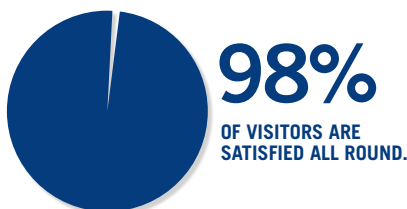

Along the entire value-added chain, from production to administration, smart, innovative and comprehensive packaging strategies are called for.

Experience it at interpack:

- Packaging machines
- Packaging technology
- Packaging materials / packaging means / auxiliary packaging means
- Packaging solution production / converting / packaging printing
- Marking technology / labelling
- Storage / logistics / transport technology
- Services

MEET THE N°1.

A visit to interpack is a smart investment in time and resources. No other trade fair for processing and packaging in the world offers such a holistic approach. The visitor survey after interpack 2023 proves that:

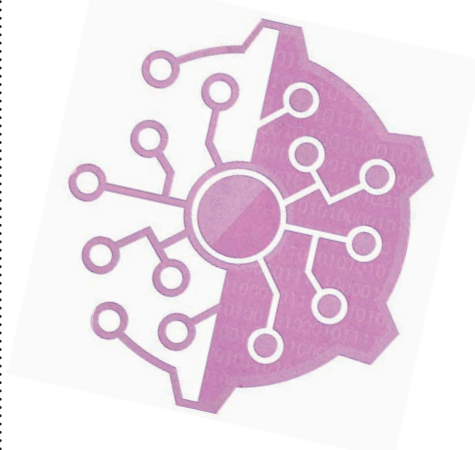

MEET THE MATERIALS.

In the packaging material section alone at interpack, more than 1,000 exhibitors from 56 countries, in 7 halls and on an area surpassing 37,500 m², demonstrate what plastic, metal, glass, paper, (corrugated) cardboard, bioplastics and other materials can do and offer some astonishing alternatives.

HOT TOPICS

Highly topical, highly relevant: the hot topics. The main topics at interpack 2026 reflect the industry's current values and objectives:

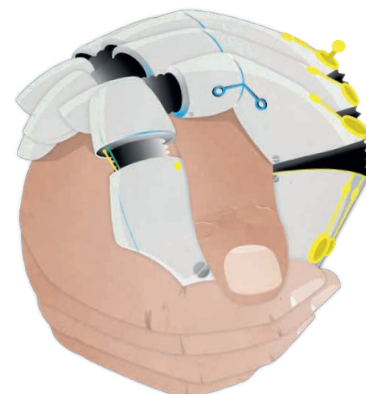

SMART MANUFACTURING

INNOVATIVE MATERIALS

FUTURE SKILLS
